

David Martin of Gallaudet's Department of Education (standing) makes a presentation to representatives of the D.C. Board of Examiners.

Crammatte's research to focus on hearing impaired professionals

Alan B. Crammatte is a bit embarrassed when people congratulate him on being selected to hold this year's Powrie V. Doctor Chair of Deaf Studies at Gallaudet.

He modestly says—although with a twinkle in his eye—that his new position in the Division of Research is sort of like having a baby: he has a nine-month gestation period in which to produce something important, and before you begin passing around the cigars, "wait until you see the product."

That's not just false modesty talking, but more a health respect for the magnitude of the task he's tackling during the 1982-83 academic year. ABC's task—not as simple as his nickname—will be to make a "rolling headcount" of all the hearing impaired people throughout the United States employed in professional jobs, and he expects that the number will be vastly increased from the original study he did back in the 1960s.

Crammatte's earlier research resulted in the book *Deaf People in Professional Employment*, which was researched in 1960-61 and published in 1968. That book compiled information on 87 profoundly deaf people throughout the country (all that he could find) who worked in the hearing world in professional jobs. Of this number, 36 were Gallaudet alumni.

In his work this year, Crammatte will update that information. Within the Metropolitan Washington area alone, he said, he could easily find 100 deaf people who would fit the criteria of the original study.

But the update of Crammatte's earlier study is only one prong of his project. "It also occurred to me that there has been an equally large increase during the past 20 years of the number of hearing impaired people in professional employment serving the deaf," he explained. So a second aspect of his work will be to compile a count of all hearing impaired people in professional positions, serving both the deaf and working in the hearing world. In analyzing this information, Crammatte will try to separate those serving the deaf and those in the hearing sector and make a few simple comparisons of such things as economic status, academic preparation and demographic statistics. The study may also possibly include some information about changing attitudes toward deaf people in professional jobs.

"I expect that the update will show a considerable increase in people employed in professional jobs," said Crammatte. He noted that between 1960-80 there had been a great deal of betterment among deaf people, especially in the areas of higher education and professional employment. For example, at the time of his study in 1960, he found only five deaf people with doctorate degrees, and that number has increased to more than 100 today. The past 20 years have also seen the establishment of the National Technical Institute for the Deaf, a program for deaf people at California State University, Northridge and the development of the National Theatre of the Deaf.

D.C. Board of Education approves teacher, psychology programs here

The Board of Education of the District of Columbia, on the recommendation of Superintendent Floretta McKenzie, has recently voted official State Approval of the Gallaudet College Undergraduate Professional Teacher Preparation Program and the Graduate Program in School Psychology.

During the week of Feb. 8, a special team of 20 educators representing the District of Columbia Public Schools' Board of Examiners, evaluated the Graduate Program in School Psychology and the Undergraduate Teacher Preparation Program at Gallaudet. The visitors consisted of public school teachers, public school administrators, school psychology experts, curriculum specialists and college faculty from the field of teacher education in the District of Columbia and universities in nearby Maryland and Virginia.

Team members evaluated the programs in relation to a set of national standards developed by the National Association of State Directors of Teacher Education Certification (NASDTEC) on behalf of the D.C. Schools, which is the "state" teacher certification agency for all colleges in the District.

Team leader Dr. Lamont Wyche, professor of psychology at Howard

University, reported that the team recommended State Approval for each of the components of the undergraduate professional preparation programs (early childhood education, elementary education, physical education and the secondary education subject specializations of mathematics, English, home economics, social studies and science), and the graduate program in School Psychology. Several recommendations and conditions were attached to the approval and will have the effect of further developing the programs.

The significance of this approval is that Gallaudet graduates of both programs will be able to qualify for professional credentials not only in the District of Columbia, but also in the 27 other states with whom the District has signed an "interstate reciprocity agreement."

A teaching certificate in "regular" education is now a prerequisite in many states for further study and certification in specialized fields such as deaf education—a career goal of many of the Gallaudet education students.

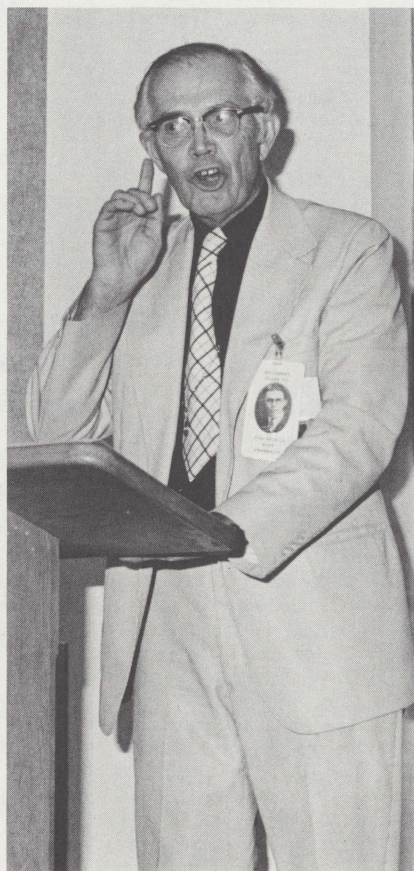

The state approval of both programs also satisfies a national prerequisite for program accreditation, which will be sought through the National Council for the Accreditation of Teacher Education (NCATE). School Psychology Program Coordinator Anne Spragins and Undergraduate Education Program Coordinator David Martin both expressed great appreciation to the administrators, faculty and staff in their respective College of Arts and Sciences, and School of Education and Human Services, who provided invaluable support and assistance throughout the State Approval visit.

New food service starts on campus

Gallaudet's new food service, ARA, began serving the campus on Saturday, Aug. 21. ARA will now be providing food services for the College Cafeteria, snack bar, MSSD and KDES dining halls and the Alumni House, as well as catering special events.

The Alumni House has not yet begun serving lunch for faculty and staff members. When this gets underway, it will be announced in *On the Green*.

ARA replaces Marriott on campus, which had held the contract for food service at Gallaudet for the past 14 years. ARA was selected through a competitive bidding process which included six bidders. Considered to have a strong nutrition program, ARA is also one of the largest college and university food services in the United States.

Alan B. Crammatte addresses alumni during the recent GCAA Reunion.

German Professor Bob Harmon (second row, right) gives German visitors a tour of campus. The German group leader was Wolfgang Schmidt (first row, right).

Faculty, staff host German visitors during summer

For two and a half weeks during this summer, a group of 17 visitors from Hamburg, Germany stayed at the homes of Gallaudet faculty and staff, as well as at the homes of some local deaf families having no connection with Gallaudet.

Fourteen of the visitors were deaf, including the group leader Wolfgang Schmidt who, as a substitute teacher at the Hamburg School for the Deaf, is one of the first deaf people in Germany to break through the "hearing barrier" to become a teacher.

Among the Gallaudet hosts were Kaye Oman (Home Economics), King Jordan (Psychology), Belinda Burgess (KDES), Carole Cangiano (Institutional Advancement), Evelyn McClave (German), Francis Higgins (Chemistry) and Jim Lichti (Demonstration Programs).

A group of Gallaudet students, faculty and staff will go to Germany next summer to be guests in the homes of families in Hamburg, Berlin and the Cologne-Münster area.

superintendents of schools where there were none in 1960.

Some of these changes are the result of more specialized education during the past two decades, according to ABC. Most Gallaudet alumni who participated in his original study, for example, had no majors, only a "liberal arts" degree. Crammatte recalled that when he graduated from Gallaudet in 1932, there were only about 20 faculty members here and the College was so small that it was not possible to have areas of specialization. In building up to Gallaudet's accreditation in 1957, the present system of majors was implemented.

In his research, Crammatte will be examining data gathered from Gallaudet, NTID, CSUN and Western Maryland College about their graduates. He will also be tapping other sources from the scientific and other professional communities, as well as asking people who know about deafness for the names of other deaf professionals.

Crammatte has a long history of involvement with Gallaudet. He came to work here in 1955, after pursuing careers in teaching, government service and private business, and worked as a business administration teacher and faculty member for 22 years. Since his retirement in 1977 he has continued to be active, most recently serving as the national co-chairperson of the Alumni House campaign which resulted in the renovation and recent opening of the Ole Jim.

The Powrie V. Doctor Chair is awarded annually to scholars who have contributed or can contribute to the welfare of deaf people. Crammatte is now at work in his new office in Trailer 1 behind House 3 and can be reached at x5030. He and his wife, Florence, will be living on campus in Carlin Hall this year.

Crammatte

continued from page 1

Although he will have no valid count of professionals serving the deaf in the 1960s, Crammatte expects that the number and variety will have increased. There are many more rehabilitation counselors serving the deaf today, he said, the area of social work is just opening up and there are now deaf

Sponsored R&D

Grant/contract deadlines

Provided below are application deadlines of selected federal programs that offer potential grant or contract opportunities for Kendall Green faculty, staff and graduate students. More details on programs of interest can be obtained from the Office of Sponsored Research, x5030 (voice or TDD).

Deadline	Program
09/13/82	NEA—Literature Program: Small Press Assistance
09/15/82	SEP—OSERS—Technology Research
09/15/82	SEP—Parent Projects
09/15/82	SEP—School Based Research Projects
09/15/82	NEH—Humanities Research Conferences
10/01/82	NEH—Research Humanities Materials: Tools/References
10/08/82	NEA—Media Workshops and Residencies
10/15/82	NEH—Elementary and Secondary Humanities Education Grants
10/15/82	NEH—Humanities Youth Grants: Preliminary Narrative
11/01/82	NIMH—Preventive Intervention Research
11/01/82	NIA—Behavioral Aging Research Small Grants
11/01/82	NIA—Health, Functioning in Middle, Later Years

NEH Award received

The National Endowment for the Humanities has awarded a \$155,416 two and one-half year grant to Gallaudet's Romance Languages Department. Proposed and directed by Carole Frankel, the project is entitled "Foreign Language and Cross-Cultural Studies for Hearing Impaired High School Students."

The goal of the project is to expand accessibility of foreign language programs serving deaf persons. Activities include the development of appropriate Spanish and French textbooks, workbooks and foreign sign language videotapes. These materials will be pilot-tested at the Model Secondary School for the Deaf.

In addition, regional workshops will be conducted by field coordinators to promote, recruit and select professionals (in deaf education) and foreign language teachers (in mainstream pro-

grams) to participate in a National Institute on Kendall Green. The Institute is designed to sensitize these professionals to the audiological, psychological and sociological aspects of deafness and to train educators in the methodologies of foreign language teaching.

Working with Professor Frankel on this project will be personnel from the foreign languages departments, MSSD, Special School of the Future project, College Educational Resources and various outreach programs.

Calendar of Extension Events

The following extension programs are being planned throughout the United States for September and October. For more information about upcoming events, contact the campus sponsor or the Office of Extension Programs. If you plan to give any off-campus presentation, workshops or courses on behalf of Gallaudet, please contact Regan Quinn, x5599.

Counseling students write book on assessment of hearing impaired

Teachers produce. Students consume. Right? Wrong.

Fifty-two students in the Department of Counseling have helped to research and write a book that is being acclaimed "a milestone in professional literature."

Assessment of Hearing-Impaired People: A Guide for Selecting Psychological, Educational, and Vocational Tests, published this month by the Gallaudet College Press, solved two dilemmas that have plagued Associate Professor Frank R. Zieziula during his six years as a teacher.

"My first dilemma was finding written materials that answer specific questions about the appropriateness or inappropriateness of tests for hearing-impaired people," said Zieziula. "The second dilemma was creating meaningful assignments for students who have to suffer through my courses."

So Zieziula decided three years ago to ask his graduate students to write the specialized and much-needed book. He selected 62 standardized tests and the 19 categories under which each test would be described and analyzed. Then the students went to work. They completed their assignments over a two-year period.

Zieziula checked the test reviews for accuracy and consistency. He scrutinized judgments concerning use of the tests with hearing-impaired people.

"I was amazed by how valuable a contribution students can make to our field if we professors do not limit their thoughts, creativity and behavior by assignments meant for the round file at the completion of their programs," said Zieziula. "This book testifies to that amazement."

Four student authors—Millie Brother, Margaret Stanton, L'Tanya Fish, and Scott Robinson—are singled out by Zieziula for their special help in preparing the manuscript for publication. Because the book was such a collective effort, most of the royalties from sales

will accrue to the Department of Counseling.

Assessment of Hearing-Impaired People consists of eight chapters devoted to tests in the areas of academic achievement, communication, intelligence, personality, visual perception, vocational aptitude, vocational interest and work evaluation systems.

The primary purpose of the book is to answer the following questions: Which tests are most appropriate for hearing-impaired children, adolescents and adults? Which instruments discriminate against individuals with auditory impairments? Which samples have normative samples for the hearing impaired?

Dr. McCay Vernon, editor of the *American Annals of the Deaf*, calls *Assessment of Hearing-Impaired People* "the most comprehensive publication yet written" on the subject and "a milestone in professional literature. It will be of use to psychologists, vocational evaluators, educators and all professionals who assess or refer for assessment hearing-impaired people."

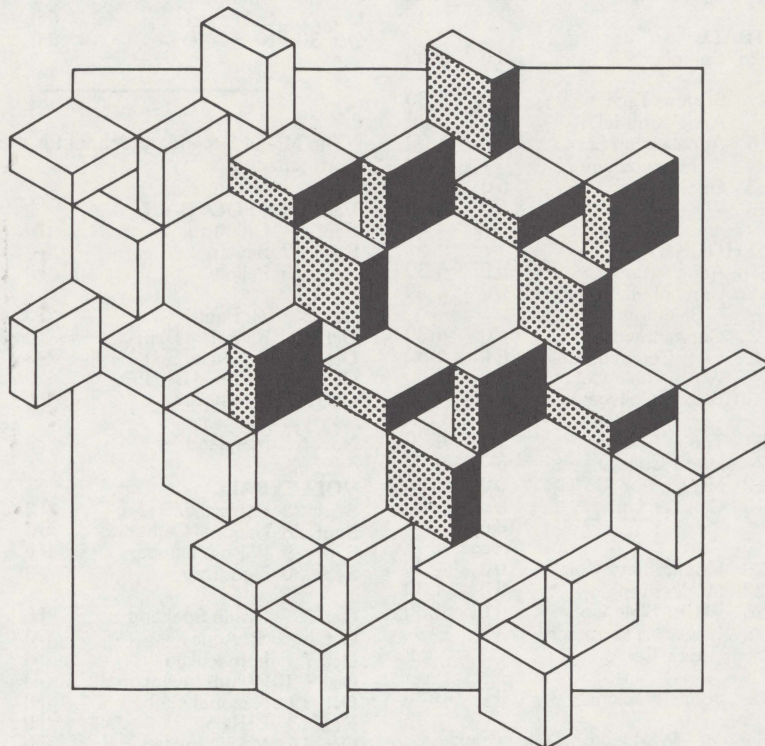

An unusually high number of pre-publication orders for the book indicates that counselors and schools are anxious to fill a major void in their professional libraries.

The 144-page book includes an introduction and a bibliography, both prepared by Zieziula in his role as editor. The book is available now at the Gallaudet College Bookstore.

Gallaudet students featured in Life

Pick up a copy of the September issue of *Life Magazine*. Beginning on page 74, you'll find an article on two Gallaudet students—Monika Valgemae, a 20-year-old freshman, and Mike Rose, a 23-year-old sophomore. The article, written by *Life* staffer Anne Fadiman, was prepared with the assistance of the Public Relation Office's Media and Campus Relations unit, directed by Donna Chitwood.

Gallaudet to be TDD pledge center for Telethon

Gallaudet College will be the location for the TDD Pledge Center for the Muscular Dystrophy Telethon (Jerry Lewis Telethon) Monday, Sept. 6.

The Telethon will be shown on Channel 5-WTTG from 7 a.m.-7 p.m. During that time, hearing impaired people with TDDs can call 651-5100 to pledge their support.

This is the first time the Telethon has had an independent TDD pledge center in the Washington area.

El Greco exhibit contains portrait of deaf friend

by Francis Higgins

The National Gallery of Art is currently holding an exhibition of paintings by the world-famous artist El Greco.

El Greco (the Greek), whose real name was Domenikos Theotokopoulos (1541-1614), was born on the Island of Crete. He studied in Venice and Rome before settling in Toledo, Spain in 1577. Thereafter, his paintings were characterized by elongated figures and compressed space along with vibrant color and dramatic light.

One of the 60 works in the exhibition is a portrait of an elderly deaf man, Don Antonio de Covarrubias (No. 61). He was a learned churchman and a close friend of El Greco.

Information about Don Antonio in the exhibition says, "Don Antonio de Covarrubias was born in Toledo around 1514 and died in the same city in 1601. He studied at the University of Salamanca and was a well-known Hellenist and a great orator. He was a canon of the Cathedral of Toledo and a member of the Council of Castille."

"In his old age, when he became completely deaf, he met El Greco who did not come to Toledo until 1577. They were friends and the artist painted him among the characters of *El Entierro del Conde de Orgaz* (The Burial of the Count of Orgaz), considered to be one of El Greco's greatest works. El Greco also did two bust portraits of Don Antonio, one of which is in the Louvre Museum (Paris) and the other in the Museum of El Greco in Toledo painted probably in his memory after the death of Don Antonio."

The painting included in the National

Gallery exhibition is the one from the Toledo Museum in Spain.

The El Greco Exhibition may be seen on the lower level of the East Building of the National Gallery of Art, Fourth St. and Constitution Ave. NW, from Monday-Saturday, 10 a.m.-9 p.m. and Sunday, noon-9 p.m. through Sept. 6.

Among Ourselves

Charlotte Baker-Shenk of the Linguistics Research Laboratory gave two workshops on the history and structure of ASL at the Canadian Cultural Society of the Deaf's Sixth Biennial Festival of the Arts held in Toronto, Canada July 26 and 27. She also gave a week-long workshop Aug. 9-13 for all the teachers of deaf children in Costa Rica, and in the evenings held seminars for parents. These workshops and seminars were designed to increase the respect of teachers and parents for signed languages of deaf communities and to encourage their support for total communication programs.

Gallaudet College was selected for an Honorable Mention award in the 1982 Cost Reduction Incentive Awards Program of NACUBO/USSF. The award was made at NACUBO's annual meeting held July 15-18 in Los Angeles.

David Wertheim, a campus police officer who teaches tennis at Gallaudet, has completed an intensive tennis teachers training course at the Van der Meer Tennis University at Sweet Briar College in Virginia. He is now certified as an instructor by the Professional Tennis Registry, the international association of professional tennis teachers.

Gallaudet College is an equal opportunity employer-education institution. Programs and services offered by Gallaudet College received substantial financial support from the Department of Education.

Fall sports schedule

Gallaudet College is about to begin its 1982-83 academic year and coaches of all fall sports are getting ready for practice sessions and scrimmage games. Once practice gets underway, an outlook on the fall sport teams will be prepared and distributed. Here's the fall sports schedule for the College:

Date Opponent Place Time

FOOTBALL
Sept. 25 Catholic (H) 1:00

Oct. 2 Stevens Tech (A) 1:30
Oct. 9 Anne Arundel (H) 1:00
Oct. 16 Appalachian St. (H) 1:00
(Homecoming)
Oct. 23 Georgetown (A) 1:00
Oct. 29 Western MD J.V. (A) 3:00

FIELD HOCKEY

Sept. 17 Anne Arundel (H) 4:30
Sept. 16 Univ. of MD, (A) 4:30
Baltimore
Sept. 21 Georgetown Univ. (A) 4:30
Sept. 24 Essex Commun. Col. (H) 4:30
Sept. 28 Wash. Bible Col. (A) 4:30
Sept. 30 Wilson College (A) 4:30

Oct. 5 Trinity College (A) 4:30
Oct. 7 Hood College (A) 4:30
Oct. 12 Mt. Vernon College (A) 4:30
Oct. 15 Catholic Univ. (A) 4:30

Oct. 20 Montgomery Col. (A) 4:30
Oct. 22 Mt. Vernon (H) 4:30
Oct. 26 Wash. Bible Col. (H) 4:30
Oct. 28 (Tentative) Lancaster Bible Col.

Nov. 2 Johns Hopkins (H) 3:30

Tournament—Washington College Field Hockey Tourney Sat., Oct. 30 at Mount Vernon College (7:30 a.m.-5:00 p.m.). Southeast Tourney—Thurs.-Sun., Nov. 12, 13, 14, 15, at North Carolina.

WOMEN'S VOLLEYBALL

Sept. 25 Mary Wash. Col. (A) TBA
Tourney
Sept. 28 UMES/Marymount (H) 6:00

Oct. 1 Juniata Tourney (A) TBA
Oct. 5 York/Hood (H) 6:00
Oct. 7 Cantonsville C.C. (H) 5:00

Oct. 9 Gallaudet Tourney (H) TBA
Oct. 12 Elizabethtown/ (A) 6:00
Gettsburg

Oct. 15 Washington College- (A) TBA
Tourney

Oct. 19 Loyola/Howard (H) 6:00
Oct. 22 Salisbury Tourney (A) TBA
Oct. 29 W&M/Upsala (H) 6:00

Nov. 2 George Mason/TBA (A) 6:00
Nov. 4 Mt. Vernon/Towson (H) 6:00
Nov. 9 W. MD/TBA (A) 6:30
Nov. 11 Catholic (A) 7:00

SOCCER

Sept. 14 Wash. Bible Col. (A) 3:00
Sept. 17 Hartford C.C. (A) 3:30

Date Opponent Place Time
Sept. 21 Mary Wash. (A) 3:30
Sept. 24 Chesapeake C.C. (A) 4:00
Sept. 29 St. Mary's (H) 4:00
Oct. 1 Frederick (H) 4:00
Oct. 5 Coppin St. (A) 4:00
Oct. 9 Hagerstown (A) TBA
Oct. 13 Alleghany (H) 4:00
Oct. 16 Toronto Deaf Club TBA
Oct. 22 Open
Oct. 27 G.T. (H) 3:00
Oct. 30 Navy J.V. (H) 2:00

The Model Secondary School for the Deaf sports schedule is:

VARSITY FOOTBALL

Sept. 3 Quantico (A) 3:00
Sept. 17 Severn (A) 3:30
Sept. 25 Pallotti (H) 4:00

Oct. 2 St. Pauls (A) 3:00
Oct. 9 Riverdale Bapt. (A) 2:00
Oct. 16 Kentucky S.D. (A) 2:00
Oct. 22 Colonial Beach (H) 2:00
Oct. 30 Poolsville (H) 2:00

Nov. 6 Maryland (H) 2:00

VOLLEYBALL

Sept. 23 Poolsville/Ballou (H) 3:30
Sept. 28 National Cathedral (A) 4:00
Sept. 29 Wilson/Dunbar (H) 4:00

Oct. 28 Edmond Burke (H) 7:00

Nov. 1 Harker (A) 3:30
Nov. 4 Sandy Spring (A) 3:30
Nov. 8-11 Potomac Valley Athletic Conference Tournament (A) TBA

Students check out one of the games in the Recreation Center located in the lower level of Ely Center.

Bowling league starts

Late last spring a questionnaire was distributed to all faculty and staff members to see if there was any interest in establishing a faculty/staff bowling league this fall. Close to 100 people responded and 75 said "yes."

An organizational meeting for all interested faculty/staff personnel who want to join the bowling league will be held Wednesday, Sept. 15 at 4:30 p.m. in the recreation area of Ely Center. Based on responses from the faculty/staff, a mixed league will bowl on Wednesdays from 4-6 p.m. Each team will consist of four bowlers.

The purpose of the Sept. 15 meeting is to establish teams, select league officers and discuss relevant matters. The league will begin bowling on Sept. 22 and continue until March 30, 1983. All persons interested in joining the league are urged to attend this meeting.

Found:

A hearing aid (behind the ear model) has been found in the HMB parking lot near a van with the sticker number C3647. The hearing aid is a Siemens, model number 24PPAGC-1 and serial number 661709. To claim it, contact the Department of Safety and Security.

Little things add up to big energy savings here

All of the "little things" that members of the Gallaudet community have done during the past year have added up to a lot, according to Ron Eng, former assistant manager for Energy Conservation and now manager of Systems Management. In fact, said Eng, they've enabled Gallaudet to stay within its present utility budget of \$2.65 million.

Earlier in Fiscal Year 1982, after Pepco and Washington Gas rate increases were approved, Eng and his predecessor in the position, Jim Hull, were sending out warnings that there might be a budget deficit in the range of \$150,000 to \$250,000. Eng credits much of our savings in this area to the "people helping people actions that often may not be thought of as being part of an energy conservation program."

With Gallaudet operating at a FY 83

utility budget of less than \$3 million, the cooperation of the campus community is still needed so that "little things can mean a lot more," said Eng. He cited the following actions that will have an impact on the FY 83 utility budget:

- Post Office substation employees in Ely Center moved their vehicle to allow delivery of three tank trucks full of fuel oil to be used in heating Houses 1, 2, 4, 7 and 8 this winter. If Gallaudet had to buy heating oil at winter rates and in smaller quantities than the storage tank size loads, it is estimated that between \$3,000-5,000 would have been added to the cost of heating those buildings.
- Safety and Security officers have been turning off air conditioners and lights left on during the midnight shift and weekends. While each individual switch may control only a small amount

of energy used, the total yearly effect could well be in the non-trivial range of \$20,000-40,000.

- Many people had the chance to play sidewalk superintendent with the gas pipeline being laid across the athletic field and the north end of Lincoln Circle. That pipeline, when added to the modifications that Ray Cook, manager of Utilities Services, is coordinating on Gallaudet's boiler plant, is expected to save between \$20,000-80,000 next year.

As he moves into his new position as manager of Systems Management, Eng says he looks forward to increased interaction with the campus community to help financially support Gallaudet's programs by eliminating the payment of unnecessary utility bills. He can be reached at the Central Utilities Building on x5231.
